

## Quality Code Descriptions

Quality	Print Quality	Text
1		Good record
24		Weekly read meter readings - daily readings interpolated.
25		Good - Daily Read Operational Data
26		Good - Daily read records
30	F	Fair Record
34	F	Fair - Estimated
35	F	Fair - Zero for blank record
36	F	Fair - Extrapolated rating
37	F	Fair - Theoretical rating
54	E	Smoothed data
55	E	Record estimated from daily flows (ml/day)
80	A	Fair - Accumulated Data
81	A	Fair - Wet day within accumulated rainfall period
82	S	Fair - Straightline interpolation between points
83	E	Estimated - Unexplained difference between recorded and storage rainfall totals
84	R	Fair - Rainfall less than 0.2mm
85	E	Estimated - Accumulated data redistributed to daily by correlation techniques
86	E	Estimated - Correlation Double Mass Adjusted
90	P	Poor Record
91	P	Poor - Estimated
102	P	Poor - Extrapolated Rating
105	P	Doubtful - Records lost - Max. & Min. waterlevel or total rainfall available
108	P	Poor - Theoretical Rating
130		Unverified Data - Not within range of measuring device
132	?	Quality Unknown
146	M	Missing Data - Daily Totals Available
147	M	Missing Data - Daily Totals Estimated
148	A	Accumulated Daily Totals
149	E	Missing Data - Daily Values Only
150	T	Unverified Telemetry Data
153	\$	Not recorded - Outside recordable range
154	X	Not Operating
155	E	Missing Data - Rainfall Storage Total Available
201	M	Missing
202	#	Missing - Outside rating range
255	M	Site not operating
